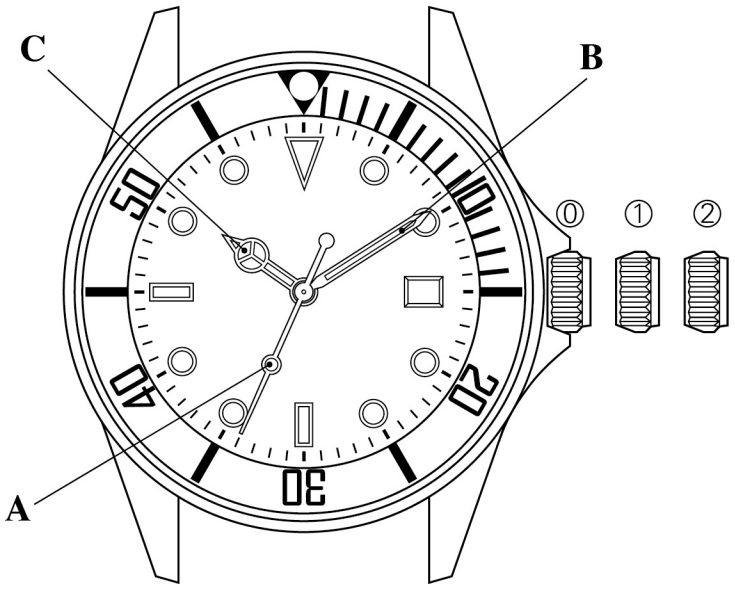
Instructions



Legend
A: second hand
B: minute hand
C: hour hand

ETA 2824-2 / SW-200
Automatic 11½

Description
Mechanical lever movement with 28.800 vibrations per hour (4 Hz), round calibre, automatic winding mechanism with ball bearing, 25 jewels or 26 jewels.

Functions
Analogue display of hour, minute and seconds with a date window. The power reserve is at least 38 hours when fully winded.

Operating Instructions
By turning the crown when it is in position 0 (normal position) resp. by wearing the watch on the wrist you can wind up the movement. By pushing the crown in position 2 you can correct the time, the second hand stops. In position 1 the date can be adjusted.
